

# 38MM Cable Cutter

The open faced cutting tool has been designed specifically for cutting into long lengths of wire rope in a crisp and simple action. The shear power of the cutter makes it suitable for cutting chain, steel sections and other hard materials. Designed without the need for a separate anvil this open cutter is particularly useful in confined spaces.

The tool is engineered from the highest quality alloys and is polished and nickel plated for added corrosion protection. This high quality construction requires little or no maintenance throughout its operational lifetime. Replacing the cutting blade or seals are simple tasks. The unit is supplied with a built in intensifier.

## Features

- Built in Intensifier
- Light weight

Specifications		Options
Cable Diameter	38mm Max	■ Alternative Handle.
Cable Type	Armoured or Lightweight Umbilical's	
Max Hydraulic Pressure	210 Bar all other functions	
Hydraulic Fluid	Mineral Oil	
Weight in air	15kg	
Handle	T-Bar Style	
Hoses	Supplied with 3m hoses to connect to ROV	
Data Sheet: A001-350-091 issue 3
