

Smart Solutions. Powerful Products.

Hydraulic Catwalks

Hydraulic Catwalks

Forum Pipe Wranglers is the premier manufacturer and supplier of hydraulic catwalks for improving safety and efficiency of drilling rigs around the globe. For more than 15 years, Pipe Wranglers has specialized in the innovation, mechanical design and fabrication of pipe handling system – and owns the patents on numerous pipe handling products.

Forum Pipe Wranglers Hydraulic Catwalks are proven to significantly reduce the hazards associated with direct handling of Tubulars during the pick up and laydown process. Reducing or eliminating the handling of Tubulars will result in a safer, more productive and more profitable Rig Site.

WRANGLER 2000 SERIES

Designed for larger service rigs and drilling rigs, this skid mounted model is capable of handling Tubulars up to 10,000 lbs with cycle times ranging from 40-60 seconds depending on the weight of Tubular being lifted.

With a variety of options and safety features, the Wrangler 2000 will reduce the amount of hazards on a typical drilling rig creating a safer and more economical environment than conventional methods of pipe handling.

LITTLE TRIPPER

The Little Tripper is designed primary for the service rig market. Both onshore and offshore, this model of Hydraulic Catwalks can be moved from location to location on an integrated trailer or via a Workboat using the skid mounted version. In addition, this multi pinned catwalk is versatile enough to be used on various substructure heights from 4-27 feet.

WRANGLER 3000 SERIES

The Wrangler 3000 Series Hydraulic Catwalk is designed to handle rigs with taller than a 22 foot substructure. Like the Wrangler 2000, this model is capable of handling up to 10,000 lbs Tubulars with cycle times ranging from 45 to 65 seconds depending on Tubular weight.

With the same features and options available as the smaller version, this catwalk also reduces the amount of hazards that occur on a typical drilling rig making it safer and more economical than conventional systems.

MARINER SERIES

The Mariner Series Hydraulic Catwalk is designed to work in an offshore environment. This model of catwalk will handle all Tubulars from Drill Pipe and Casing to Riser. Each catwalk is customized to meet the rig requirements which will allow access to all areas of the pipe deck by the existing cranes due to the unique retracting design.

In addition to the Mariner, all other models of Hydraulic Catwalks can be utilized in the offshore environment upon request. (Wrangler and Tripper Series)

HYDRAULIC CATWALK FEATURES

- Hydraulic Gull Wings
- Tubular Skate with Adjustable Hood
- Hydraulic Leveling Jacks
- Safety Curtain
- Tubular Laydown Shovel
- Strobe Light
- Safe Trough Stop
- Podium Style Controls

HYDRAULIC CATWALK OPTIONS

- Remote Control
- Catwalk Crawler
- Little Tripper Skid
- Tool Basket
- Multi Position Front Arm
- V-Door (Conventional or Hydraulic)
- Casing size over 20"
- Diesel Hydraulic Power Unit
- Removable Snow Panels
- Pipe Tubs (Land)
- Belly Tubs (Offshore)
- Special options available upon request

Our goal is to become the leading provider of mission critical oilfield products and related services in terms of customer satisfaction, safety and financial performance.

Our experienced management team and employees are dedicated to solving our customers' problems. We invest in long term relationships and cooperate on product development with our clients, we consider them our partners.

OUR CORE VALUES

Integrity: In everything we do, in every interaction, both internally and externally, we strive to operate with the upmost integrity and mutual respect.

Long-term view: We are building our company for the long-term, a company that we can be proud of.

Open communication: We believe partnerships with our customers and co-workers must be based on trust, professionalism and transparency.

Customer focused: Our products enhance our customer's performance and we listen to their needs and work with them to solve their challenges.

Good place to work: We are committed to creating a workplace that fosters innovation, teamwork and pride. Every team member is integral to our success and is treated equally and fairly.

No one gets hurt: The safety of our employees and customers is our first priority coupled with a healthy respect for the environment.
