

Multipurpose Crane

The Forum Energy Technologies multipurpose crane (MPC) is a highly versatile and valued addition to any rig. Hydraulically actuated, the MPC provides multi-axis control to access hard-to-reach places, virtually eliminating the need for manual interface.

Its compact design allows it to handle a wide variety of applications, including:

- BOP maintenance and repair
- Wireline activities
- Pipe Deck or rig floor crane
- Man riding activities

Routine maintenance can be achieved without the use of a riding belt when the MPC is fitted with an optional personnel basket, increasing safety while further enhancing its unique flexibility.

Additional benefits are gained from the independent winch located at the end of the arm. Lift capacity is not diminished based on extension, eliminating the need to add inclinometers and other components.

Multipurpose Crane

TECHNICAL SPECIFICATIONS

Model	Safe Working Load at Winch	Safe Working Load at boom eye pad	Max. Radius	Hook Travel	Slew Travel	Maximum Hydraulic Requirements
6K	6,000 lbs	13,000 lbs	32.8'	32.8'	180°	2600 psi @ 50 gpm
7.5K	7,500 lbs	13,000 lbs	21.6'	25.5'	220°	2800 psi @ 24 gpm
10K	10,000 lbs	N/A	23.8'	60.7'	180°	2500 psi @ 24 gpm
15K - VP	15,000 lbs	N/A	30.5'	82'	360°	3000 psi @ 50 gpm
22K	22,000 lbs	N/A	24'	32.8'	229°	2500 psi @ 50 gpm
